

SOAPY SOLUTIONS FOR SHOWERS

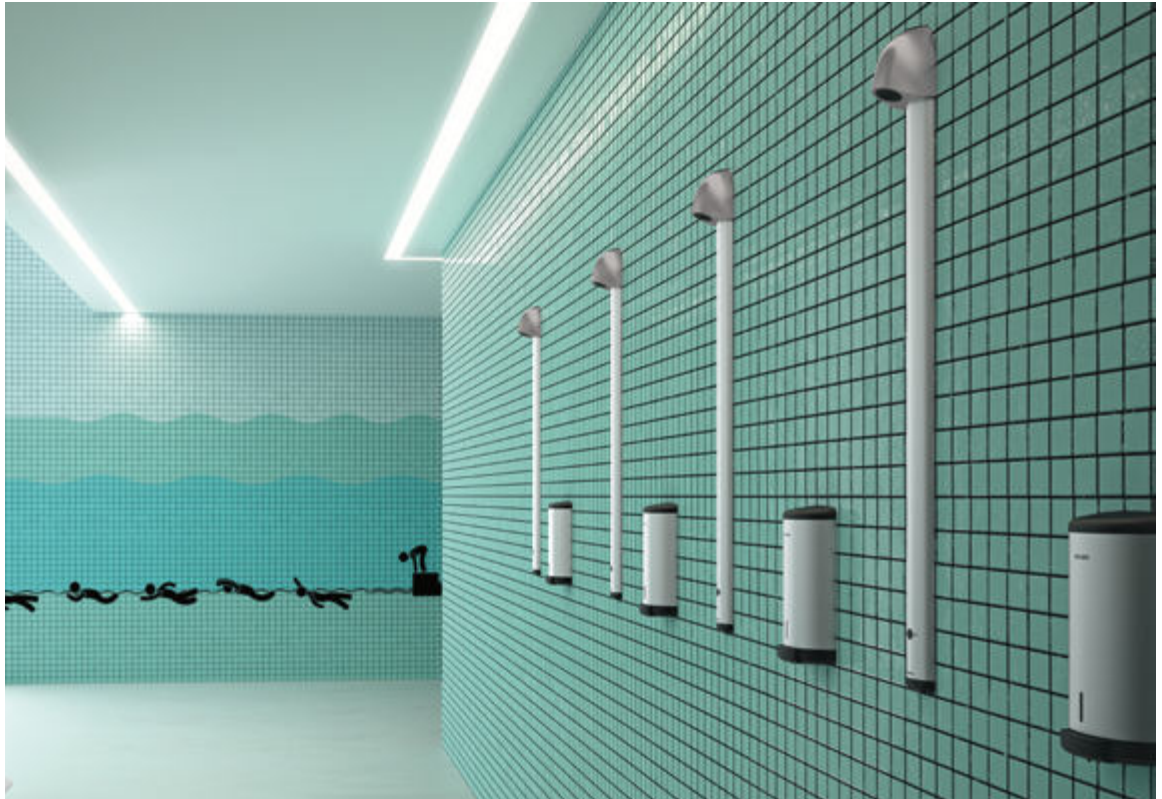

Soap dispenser specifically designed for showers

Soap dispenser specifically designed for showers

Creates a design DUO with the SPORTING 2 time flow or electronic shower panels

Ref. 510579

The DELABIE Group, an expert in accessibility in public places, has extended its range of shower accessories with its new soap dispenser.

Waterproof, it is specifically designed for installation in the shower.

Made from aluminium, it is the perfect partner for DELABIE's popular shower panels.

100% waterproof

This new liquid soap dispenser is completely waterproof. It is important to know that when water mixes with soap it changes the composition of the soap and ultimately causes bacterial growth.

DELABIE has designed its new soap dispenser so that it can be used safely in the shower. Water cannot penetrate inside the soap tank.

Moreover, the tank shape is designed to prevent the soap from stagnating permanently, ensuring maximum hygiene.

Design DUO

This new soap dispenser features the clean lines common to DELABIE's popular range of shower panels.

This DUO, made from anodised aluminium, creates a harmonious design whole.

Because washrooms are often the image of the entire building, this dispenser brings a final design touch to showers in public places.

Comfort

The push-button has been specifically designed for use with wet hands.

Wide, it is also distinctly ergonomic.

Designed for public buildings

The lid opening is concealed and very discreet.

The fixings are also concealed.

Any attempt at theft, which occurs frequently in public washrooms, is therefore prevented.

PRODUCT BRIEF / SOAPY SOLUTIONS FOR SHOWERS

The DELABIE Group, an expert in accessibility in public places, has extended its range of shower accessories with its new soap dispenser. Waterproof, it is specifically designed for installation in the shower. Made from aluminium, it is the perfect match for DELABIE's popular shower panels, creating a harmonious DUO.
